

Our Free Online Event: FoB:Chem

November 12, 2026

Our Partners

Our event, **Future of BioChemicals (FoB:Chem)**, will take place on **November 12, 2026**, as a **free online event**.

Bio-based Chemicals

Bio-based chemicals are becoming increasingly important for many formulated products. Surfactants for cleaning, home care, and personal care, solvents for paints, coatings, adhesives, and printing inks, as well as functional additives offer companies new opportunities to reduce fossil raw materials, VOCs, carbon footprint, and regulatory risks. Future of BioChemicals 2026 brings together relevant players from the chemical industry, application industries, research, and technology to discuss market-oriented developments and concrete applications for bio-based specialty chemicals. The focus is on solutions that combine sustainability, performance, and industrial feasibility. At the same time, raw material availability, scaling, costs, performance, and integration into existing formulations remain key challenges for market success.

The focus of this event is on **economic perspectives, innovative developments, and practical insights** in the field of **bio-based chemicals**.

Biobased Economy

Innovation

Practical Applications

event

What to Expect

The event offers exciting **keynotes**, **interactive panels**, and targeted **networking opportunities** with companies, start-ups, investors, and other players in the industry – creating a platform for **exchange**, **inspiration**, and new **impulses** for the future of the bio-based chemicals.

Keynotes

Be inspired by leading voices from business and practice as well as innovations – with impulses on trends, markets, and solutions of tomorrow.

Panels

Experience exciting discussions with experts from various fields – and contribute your own questions and perspectives to the dialog.

Networking

Start connecting now with companies, start-ups, investors, and other stakeholders in the bioeconomy – several hundred participants are expected!

Your Benefits

- ✓ **Networking with business potential**
Establish new connections with customers, partners, and suppliers – for strategic collaborations and new business ideas.
- ✓ **Visibility in a growing industry**
Position your company as a pioneer in the future market of bio-based chemicals – whether as a participant, speaker or sponsor
- ✓ **Strategic insights from industry leaders**
Leverage the expertise of leading minds from business and science to advance your strategic development.
- ✓ **Exchange at decision-maker level**
Discuss current challenges with industry peers – and gain concrete solutions for your business.
- ✓ **Free of charge & individually tailored**
Benefit from high-quality content and valuable contacts – with no participation fee and the freedom to choose the sessions that matter most to you.
- ✓ **Online: Flexible & efficient**
Participate from anywhere – without the need to travel, with full content relevance and international access.

Preliminary Agenda

All times are in Central European Time (CET)

Thursday, November 12

9:00 a.m. - 10:00 a.m.

Keynotes: Framework Conditions

10:00 a.m. - 10:30 a.m.

Panel

10:30 a.m. - 11:30 a.m.

Keynotes: Bio-based Materials and Products

11:30 a.m. - 12:00 p.m.

Panel

12:00 p.m. - 5:00 p.m.

Networking Opportunity

Who Should Participate

Start-Ups

Advance your **business idea** – in **exchange** with investors and established companies. Make **valuable contacts**, gain **insights into the market**, and become part of a dynamic **innovation network**.

Investors

Discover promising start-ups, innovative solutions, and new **investment opportunities** in the **future-oriented bio-based chemicals market** and gain insights into current technologies and **market dynamics**.

SMEs

Use the event to **network**, make new **business contacts**, and gain **impulses on the bio-based chemicals** and current market developments.

Researchers

Experience how bioeconomic innovations are put into practice. The event offers insights into **market trends** and **new perspectives** for **research** and **transfer** – in dialog with stakeholders from different areas.

Large Companies

Identify innovations and **market trends** at an early stage. **Network** with start-ups and experts to gain impetus for your **innovation strategy** and new **growth opportunities**.

Politicians

Gain **insights** into bioeconomic innovations and **network** with shapers of social and economic change.

All information about registration can be found on our event website

Get Actively Involved!

Become a Speaker

We are looking for experts who ...

- drive **innovation** in the field of **bio-based chemicals**
- share market-relevant **insights** into **bio-based chemicals**
- provide **impulses**
- contribute new **perspectives** from business, start-ups, or practice

[Become a speaker](#)

Become a Partner

Do you represent an **association**, a **network**, a **research institution**, or a **non-profit organization** related to the bioeconomy?

Become a **partner** and:

- increase the **visibility** of your organization
- position yourself where the exchange on bioeconomic innovations, solutions, and perspectives takes place

[Become a partner](#)

Become a Sponsor

Would you like to position your company as a **responsible** and **forward-thinking** player in the bioeconomy?

Become a **sponsor** and:

- demonstrate **responsibility**, **innovative strength**, and **cooperation**
- become **visible** in the **international** bioeconomy network

[To the Sponsor Brochure](#)

Become a Media Partner

Do you run a **specialist medium**, a **platform**, or an **editorial format** with a focus on bioeconomic industry topics?

Become a **media partner** and:

- benefit from **visibility** in the environment of leading specialist players from science, industry, and associations
- gain access to a targeted, topic-specific community.

[To the Mediapartner Brochure](#)

Why Us?

As one of the leading market research institutes in Europe with **over 10,000 satisfied international clients**, we have **in-depth insights** into current developments towards a bio-based economy. Our aim is to promote sustainable economic innovation, actively shape the interface between **business** and **sustainability**, and accelerate the transition to a resource-efficient, bio-based economy.
