PARTICIPATION

Online registration

Our event **Future of BioInvestments 2027 (FoB:Invest 2027)** will take place on **February 10 and 11, 2027** as a **free two-day online pitching event**.

FoB:Invest connects selected bioeconomy, industrial biotechnology and climate-tech ventures with investors, corporate venture units and strategic partners in a focused online format. Innovations such as bio-based materials, new fermentation processes, enzyme technologies and circular resource models are shaping the industry of tomorrow – but turning a breakthrough into a scalable business demands capital, partnerships and access to markets.

OUR PARTNERS

What to **Expect**

FoB:Invest combines a precisely organised pitch day with a structured pre-selection of the participating startups. The startups present their technologies and business models to a highly qualified network of financial and strategic investors, clusters and technology promoters – entirely online, internationally and with a limited number of participants for an exclusive specialist audience.

Dealflow Book

Registered investors receive the startup profiles **approx. one week before the event** – for targeted preparation.

Online Pitches

Concise startup pitches with a clear investment focus – **5 minutes per startup**, from early-stage to scale-up.

Investor Choice Award

The investors decide: which startup stands out in terms of innovation, market readiness and scalability? The winner will be announced at the end of the event.

1:1 Networking

Connect directly with investors and startups and arrange follow-ups for potential investments, collaborations or pilot projects.
