Future of Bio Investments

April 22 and 23, 2026

Our Partners

C.A.R.M.E.N. | Bio Circularity | Part of GREENTECH BW | CLIB | Chemie Cluster Bayern | Cluster Industrielle Biotechnologie

Our event, ***Future of BioInvestments (FoB:Invest)***, will take place on **April 22 and 23, 2026**, as a **free online pitching event**.

Bio-Investments

Innovations in the bioeconomy are shaping the industry of tomorrow: Bio-based materials – such as bioplastics and packaging, bio-based building materials, bio-based coatings, paints, and adhesives – new fermentation processes, enzyme technologies, and circular resource models are driving sustainable solutions for chemicals, packaging, construction, agriculture, consumer goods, and industrial goods. The new EU Bioeconomy Strategy presented in November 2025, which aims to support bio-based innovations and establish lead markets for bio-based materials and technologies, will further accelerate this change politically. But turning a breakthrough into a viable, scalable business requires more than scientific excellence – it demands capital, partnerships, and access to markets.

Online Pitches

Award Ceremony

1:1 Networking

What to Expect

FoB:Invest combines a precisely organized pitch day with a structured pre-selection of the participating startups. The startups will not only present their innovative technologies and services, but also gain access to a highly qualified network of financial and strategic investors, clusters, and technology promoters. The event will take place entirely online – efficiently, internationally, and with a limited number of participants for an exclusive specialist audience.

Online-Pitches

Experience concise startup pitches with a clear investment focus – from early-stage to scale-up. Gain first-hand insights into business models, market potential and financing strategies.

Award Ceremony

Follow the jury's decision: which startup stands out in terms of innovation, market readiness and scalability? The winner will be announced and celebrated at the end of the event.

1:1 Networking

Connect directly with investors and startups. Arrange individual follow-up meetings and build new relationships for potential investments, collaborations or pilot projects.

Your Benefits

✓ **Networking with investment focus**
Build targeted connections with investors and startups – for potential investments, pilot projects and collaborations.

✓ **Visibility for innovative players**
Position yourself or your organisation as an active shaper of the future bioeconomy – as a participant, jury member or sponsor.

✓ **Market insights for your strategy**
Benefit from the perspectives of leading investors and industry experts – supporting your own strategic and financial decisions.

✓ **High-level exchange with decision-makers**
Discuss challenges and opportunities directly with decision-makers – and identify concrete innovation and market opportunities.

✓ **Free access to high-quality content**
Gain access to high-quality sessions and selected contacts – free of charge for investors and participants.

✓ **Online: Flexible & efficient**
Participate from anywhere – without the need to travel, with full content relevance and international access.

Who Should Participate

Venture Capital

Discover high-quality dealflow in the bioeconomy, bio-based materials and industrial biotechnology. Identify startups early with strong scaling potential and deepen your investment focus in an exclusive environment.

Strategy Teams

Gain early insights into technological developments and market trends in the bioeconomy. Use FoB:Invest to evaluate new business models and derive strategic options for your company's future positioning.

Corporates

Access emerging technologies in the bio-based sector early on. Connect with startups and investors to explore strategic investments, pilot projects or co-development opportunities for your transformation and growth strategy.

Development Banks

Gain a concise overview of innovation projects and business phases within the bioeconomy. Use FoB:Invest to identify suitable candidates for your funding instruments and investment programs.

Family Offices

Use FoB:Invest to gain direct access to qualified startups and technologies in the bioeconomy. Meet founders and investors in person and identify investment opportunities with long-term value potential and sustainable impact.

Policy & Public Sector

Gain concrete insights into the financing realities of the bioeconomy and the needs of growing companies. Connect with startups, investors and organisations to help further develop funding frameworks and location strategies.

All information about registration can be found on our event website
