

# Our Free Online Event: Future of BioPackaging

October 28 and 29, 2025

FoB:  
Partner

Our event, **Future of BioPackaging (FoB:Pack)**, will take place on **October 28 and 29, 2025**, as a **free online event**.

## Biopackaging

The market for **biobased packaging** is a central component of the sustainable economy and is becoming increasing importance. Driven by the growing demand for environmentally friendly solutions, new biobased alternatives to conventional packaging are continuously emerging – for example in the form of food packaging, shipping materials, or innovative reusable concepts. These developments open up new opportunities for companies along the entire value chain. At the same time, ensuring the availability of suitable materials and bringing market-ready products to fruition represent key challenges that need to be addressed collectively.

The focus of this event is on **economic perspectives**, **innovative developments**, and **practical insights** in the field of **biopackaging**.
